

Dr Belter UK - Professional Skincare Brand

Dr Belter

Sensi-Bel

Functional skin disorder and an impaired immunity system require special care and attention in the method of treatment. Care must

focus on regenerating and fortifying the skin's protective barriers, reducing skin disorder and supporting its balancing processes.

The sensi-bel range ensures particularly gentle, meaningful skin therapy for challenging skin types. It is a source of well being for very

sensitive skin with disturbed lipid barrier function and eczema as well as for skin with a tendency toward couperosis and its later stage

rosacea.

Delicate Cleanser

The first step toward soothing your skin is calming the over sensitive, soft skin with impaired natural resistance. This naturally coloured, grease-free gel is gentle and mild $\frac{1}{2}$ but thorough $\frac{1}{2}$ in its cleansing properties. It contains no soap and ensur [\[Find out more...\]](#)

Delicate Tonic

The most gentle facial tonic. Refreshing and stabilising, normalising the pH-value of the skin, calming and protecting, this honey-yellow, mild refresher tonic - naturally without alcohol - reduces skin irritations and makes the skin surface less suscep [\[Find out more...\]](#)

Delicate Daycare /24

A unique, feather-light beauty fluid for day or 24-hour skin care. Based on precious ingredients of the purest quality and mainly identical to the skin's natural properties, this superb fluid enriches the skin with moisture, calms, smoothes, protects and [\[Find out more...\]](#)

Delicate Nightcare /24

A unique, soft and enriched beauty fluid for night or 24-hour skin care. This special care provides the skin with oils to develop a natural protective barrier, recreating a perfect skin balance and helping against premature wrinkle formation. Active ingre [\[Find out more...\]](#)

Couperosis Compact Cream
