Dr Belter

Bio-Classica

"A classic is classic because of a certain eternal and irrepressible freshness." Â Ezra Pound, poet.

Every professional knows: Beautiful skin at every age is not a coincidence â€" but proof of regular, effective and tailored skin care.

In line Â»BIOCLASSICAÂ« every woman finds her very own skin care classic!

The highly innovative formulas from our own research and development laboratories combine aspects of organic cosmetics, if available fair trade, with highly effective promedical active ingredients.

Â»BIOCLASSICAÂ« products are formulated in accordance with the DR.BELTERÂ® GreenTec Concept: without mineral oil, silicone oil, parabens, PEG, palm oil as raw material, colourants and animal ingredients.

Visible changes in the appearance of the skin, such as fine lines as well as a decrease of elasticity in our skin tissue give reason to adjust our skin care routine and step up to a more specific and active substance-rich care products.

With Â»BIOCLASSICAÂ« we consider the physiological processes related to premature ageing prevention in detail.

With particular attention to providing valuable, organic lipids, biomimetic moisturising factors and skin type specific active substances, we support the skin's vital functions, strengthen its resistance hereby safeguarding its youthful radiance.

Classic cosmetic ingredients, such as silk, vitamins, traditional plant extracts and algae are combined with highly innovative, partly patented active substances like the biomimetic DLS, time-release-spheres and the matrix-forming Glucolift complex. The individual formulas are designed to provide a broad spectrum of positive effects for different skin types and skin ages:

Pure Balance Fluid and Refiner – for combination skin with a tendency towards impurities

AquaSilk Serum and AquaSilk 24 cream – ultralight & hydroactive, refreshing moisturising care

Gentle Beauty Balm – well-balanced moisturising and protective care for normal, slightly sensitive skin

Day Care Plus and Night Care Plus – extra rich, preventive anti-ageing for very dry skin

Day & Night Special Cream – multi-regenerative cream for very dry, demanding skin

Hydra Dayshield 30 – SPF 30 fluid – multifunctional daily care and protection against sun damage

Tip: Nothing makes a woman more beautiful than feeling beautiful – and that is not a question of age.
